How we calculated your charges

Balance forward	Amount of your last bill	\$9,519.16
	Amount we received on February 21, 2017 - thank you	\$9,519.16 CR
Balance forward		\$0.00

Your electricity charges

Your service type is General Service - Demand

Electricity - kWh		
We read your meter J3642054 on February 03, 2017	000834	
We read your meter on January 06, 2017	- 000727	
Difference in meter readings	000107	
Metered usage in kilowatt-hours (107 x 360) = 38,520 kWh		
Demand - kW		
We read your meter J3642054 on February 03, 2017	190	
Demand used in kilowatts (190 x 360 ÷ 1,000) = 68 kW		
Total demand in kilowatts = 68 kW		
Demand - kVA		
We read your meter J3642054 on February 03, 2017	196	
Demand used in kVA (196 x 360 ÷ 1,000) = 70 kVA		
70 x 90% = 63 kVA		
Total demand in kVA = 63 kVA		

Your demand charges are based on 68 kW this month as it is the higher of the two measures.

Your power factor is 68 kW ÷ 70 kVA, which equals 97%.

Electricity: ENERGY CHARGE	\$962.84
Global Adjustment: 38,520 kWh @ 7.0108 ¢	\$2,700.56
Delivery	\$1,516.84
Regulatory Charges	\$277.92
Debt Retirement Charge	\$269.64
HST (87086-5821-RT0001)	\$744.61
Total of your electricity charges	\$6,472.41

Electricity : This is the cost of the electricity supplied to you during this billing period and is the part of the bill that is subject to competition.

Global Adjustment: Electricity generators in Ontario receive a combination of payments from the operation of the wholesale market, payments set by regulation and payments under contracts. Your portion of the net adjustments arising from these and other authorized payments is included on your bill as the Global Adjustment.

Delivery : These are the costs of delivering electricity from generating stations across the Province to Hydro One then to your home or business. This includes the costs to build and maintain the transmission and distribution lines, towers and poles and operate provincial and local electricity systems. A portion of these charges are fixed and do not change from month to month. The rest are variable and increase or decrease depending on the amount of electricity that you use.

The delivery charge also includes costs relating to electricity lost through distributing electricity to your home or business.* Hydro One collects this money and pays this amount directly to our suppliers.

*When electricity is delivered over a power line, it is normal for a small amount of power to be consumed or lost as heat. Equipment, such as wires and transformers, consumes power before it gets to your home or business.

Regulatory Charges: Regulatory charges are the costs of administering the wholesale electricity system and maintaining the reliability of the provincial grid and include the costs associated with funding Ministry of Energy and Infrastructure conservation and renewable energy programs.

Debt Retirement Charge: The debt retirement charge pays down the debt of the former Ontario Hydro.

NOTE: For a detailed explanation of electricity terms, please visit www.HydroOne.com or www.oeb.gov.on.ca.

+Your consumption is based on metered use as of June 1, 2015. Historically, this was based on adjusted use.
