

Garbage Collection Services

Brown's Sanitation has requested that the Municipality of Huron East assume responsibility for garbage collection services provided by Brown's Sanitation in Huron East.

The regular Tuesday and Thursday schedules for residential garbage collection in Seaforth, Egmondville and Harpurhey will be maintained. In addition, commercial garbage in the commercial area of Seaforth that is tagged and set out for pick up on Thursdays will be collected.

Bag Tags from Brown's Sanitation will continue to be used and are available at the following locations:

- Huron East Municipal Office
- Beckers
- GT Mini Mart
- UPI
- Pete's Paper Clip

The Municipality of Huron East has retained the services of Waste Management of Canada to provide the collection services. Waste Management was selected by Huron East to provide waste collection services effective July 1st, 2018, but will commence services on Tuesday, March 13th, 2018. Eventually, waste collection services will be consolidated to a single day and a new Huron East bag tag system will be implemented. Further details will be provided closer to the implementation date which will be sometime in May

Huron East staff will continue to provide residential collection service on Wednesdays in Kippen, Brucefield and Highway 4 until the full conversion to Waste Management Services.

Property owners of multi-residential, commercial or industrial properties that were not using individual bag tags will have to make alternate arrangements for waste collection services. Both Bluewater Recycling and Waste Management offer waste disposal bin services.

Recycling services by Bluewater Recycling are not affected by these changes.

Huron East Council wishes to thank Brown's Sanitation and previously Lamont's Sanitation for their past services in the Seaforth area.
